Index to Black and White Photographs

Jack E. Boucher, photographer, Spring 1995

As part of a Cultural Landscape Study of Valley Forge National Historical Park, with emphasis on the area around General George Washington's Headquarters, the following photographs include copies of ca. 1861-1930 historic views matched with replications of those views today. When possible, the specific date for each historic view has been cited; however, for the following captions without dates listed, refer to the date parameters ca. 1861-1930. All historic views are from the Valley Forge National Park Archives, unless otherwise indicated.
